

iCloud Fan Series

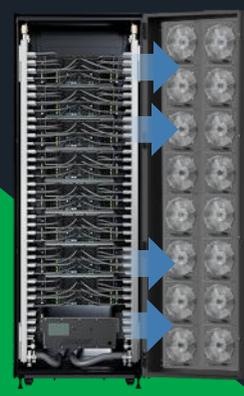

200X70 mm

for AI Server / Data Center Cooling

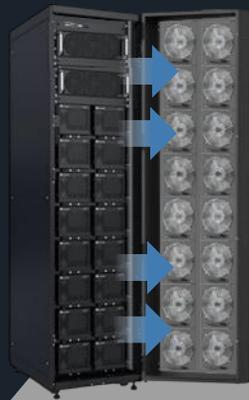

- High airflow output to meet high TDP (Thermal Design Power) requirements.
- High mechanical strength and rigidity.
- Excellent thermal stability and heat resistance.
- Available in 24V / 48V / 54V rated voltage options.
- Life expectancy: 70,000 hours @ 40°C (L10).
